Real Estate for Sale!

See R. C. Benton, Oregon, Mo., for farm loans, for personal loans, for a house to rent, for a public sale, for a house to sell, for a farm to rent, for a farm to sell. For fire and tornado insurance in town and country. There never was a time when you should watch your insurance closer. Why? Because of the high price of lumber. See that your insurance is well distributed and calls for proper amounts on each class of property, and have a clear contract that this is to be done for a stated amount of money, for a certain period. Don't go it blind or wide open. Our courts are full of trouble of this kind.

I have both 'phones at office and residence. Can also read writing, and I never refuse to talk, when I am paid for it. So come after me in whatever way your judgment dictates.

G. H. ALLEN, P. M.

—G. W. Gambrell, of near Bigelow, is nursing a very sore hand, and he says he had a very close call for his life. He tells us that he went out after some squirrels that seemed to have an extraordinary fondness for his Champion peaches, and he took his gun along, with the object of putting an end to their peach destruction. Taking his position, and putting his gun to his shoulder, and while in the act of getting a good aim, he stepped backward, and in doing so he tripped and fell, and in falling his gun went over his head and his hand struck a snag penetrating its fleshy part, and inflicting an ugly wound, that will put him in shape to "lay off" from hard work for several days to come.

—George Stephenson is limping around, as the result of being kicked one day last week, by one of his horses.

—Miss Dorothy Thomas, is here from Kirksville, where she completed her music course at the State Normal, receiving her diploma. She is visiting her relatives here.

—Jack Frost made his first visit to Iowa Sunday night last, August 23. The report indicates that in the low lands of northern Iowa, corn got more of a nipping than was good for the crop at this time of the year. Minnesota, North Dakota and northern Wisconsin were also touched with frost.

—It seems that the Republican slogan, "Let us see the books," is out of tune in this state this year. Four years ago it was worked to a finish and when they got to see the books it was found that they balanced to a cent. In the meantime a shortage of over \$50,000 turned up in the sub-treasury in charge of a prominent Republican, at St. Louis. The above is going the rounds of the state Democratic press. Senator Wm. J. Stone, Democratic senator from Missouri, is the father of a bill in the senate providing for the release of Sub-treasurer Aiken, from any obligation to make good the loss.
